

What makes TLT- Tomorrow's Leaders Today DIFFERENT?

We have four leadership programs that address the needs of every community. Our focus is on real life soft-skills, self-sufficiency, career development, leadership skills, and civic responsibility.

We work with each 8th grade-Junior College participant to integrate their career path/goals in mind while developing leadership qualities and skills.

We believe that engagement with business, civic and community leaders aligned with the participant's career choice leads to more meaningful connections. The selection of the class facilitators, mentors, retreats, internships and community service projects help foster these relationships. The participant will learn how to be a leader in any career they choose.

TOMORROW'S LEADERS
— T O D A Y —

Program Overview

This program will cover basic real life soft-skills and higher education and career readiness through group discussions, hands on exercises, speakers and presentations about the civic, corporate, charitable and educational opportunities right in their community.

During each 12-week session, a community service project will be selected by the participants that must be completed before the graduation ceremony that will take place at the last class.

This program is made possible due to all of our monthly donors and sponsors. Because of them, we are able to allow our 8th grade – Jr. college level economically disadvantaged students throughout Denton and Collin County, Texas participate in this program at no cost to them.
