"I lost my job last year due to the COVID-19 pandemic, and in a time where work and interning seemed impossible, TLT made it happen. Much like the student participants of TLT, this opportunity came to me in a time of life where I didn't know what was going to happen next. I experienced and developed a better sense of workplace professionalism and refined skills I can use throughout my career."

- SMW, TLT Intern

"As an intern for TLT - Tomorrow's Leaders Today, I was able to gain valuable work experience while developing professional skills and relationships. This opportunity was a perfect fit, as it allowed flexible scheduling, personalized coaching sessions, and weekly team meetings. What first attracted me to this internship opportunity was the organization and its mission. Its impact on the local community speaks volumes and the organization is constantly improving. I would recommend this internship to high school students, college level, and college graduates. This is a great way to build your resume and refine professional skills related to your personal career path and goals."

"This internship has been a blessing, honestly. I have learned how to speak up and be confident when addressing other people. I have learned new programs and techniques. And I got to be a part of a team that is helpful and supportive of each other, which, with this being my first time at anything job-like, I really appreciated."
